Re: KSWD(FM), Los Angeles, California
Facility Identification Number: 70038
Bonneville Holding Company
Request for Increased Digital Power
Hybrid IBOC Digital Operation

Dear Counsel:

This is in reference to the request filed June 7, 2010, on behalf of Bonneville Holding Company ("BHC"). BHC requests authority to operate Station KSWD with increased digital effective radiated power ("ERP") in excess of -20 dBc¹, pursuant to the Media Bureau's *Order* adopted January 27, 2010, in MM Docket No. 99-325 ("*Order*").

Our review indicates that the notification requirements of the *Order* have been satisfied, and that the proposed operation complies with the contour nonoverlap and other technical requirements of the *Order*.

Accordingly, the request IS HEREBY GRANTED. Station KSWD may operate with increased digital ERP, as follows:

Analog ERP: 5.4 kW (H&V)
Digital ERP: 0.087 kW (H&V)

Transmitter Power Output ("TPO") shall be maintained within 90% and 105% of the following:²

Analog TPO: 9.5 kW

¹ Decibels relative to analog carrier.

² See 47 CFR Section 73.1560(a).

Digital TPO: 0.153 kW
Combined TPO: 9.653 kW

BHC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines; *See* 47 CFR § 1.1310. It may be necessary to reduce the power of the digital signal or cease hybrid operation if interference complaints are received. This authority may be modified or cancelled by the Commission without notice or right to hearing. This authority attaches to, and runs concurrently with, the main station license. BHC must post a copy of this authority with the station license.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer
Audio Division
Media Bureau
